

Information for Film Production:

Recommended length of film is 3-5 minutes.

Film project specifications:

Ratio 1920 x 1080

H264 Format in .mov or .mp4 or .m4v

Film on multiple devices:

You can marry content from different cameras (e.g. iPhone) and color match it in post-production as best as possible.

**Films to be delivered by: August 26**

- Info sound:

Kimmo Vennonen is our sound specialist, you must book a session for film sound consultation by emailing him directly at: kimmo@kvp.net.au

Kimmo is available **June 22 to July 6th** and then from **July 26 to August 19**.

- Start your film with a title frame with the name of your school and the name of your film.
- We will send you an end plate to add to the end of your film with logos
- We recommend you use the school internet to upload your videos as it will be quicker.
- Save files with your school's name and number them (1,2) if you are presenting more than one video.
- Also bring a labelled backup or hard drive (one per video) on the day of your performance too.

Camera hacks and tips:

There are lots of great camera hacks and techniques on social media sites including the fan and bullet time action.

Check these out:

## Tips:

Think about your audio levels. Your loudest section in your film should be considered against your most quiet section. Listen to your final edit through headphones and speakers and make sure you are happy with the balance. Please ensure the track is stereo.

## Sound and Music for Video-dance:

(From the Production Manual)

### MUSIC CLEARANCE FOR DANCE FILMS/SCREEN DANCE

An Educational APRA AMCOS license for music and sound does not give permissions or rights to use/play/sync tracks on a film. An educational/ schools license is NOT a synchronization license for film.

For more info : <https://creativecommons.org/about/programareas/arts-culture/arts-culture-resources/legalmusicforvideos/>

### Solution:

All Schools participating in the film projects for YDF21 need to either use original commissioned music by a local composer (with a synchronization license granted by the composer) or CC0 (Creative Commons Zero: ONLY) music from a library. There are several Creative Commons licenses - only permit CC0. CC0 Libraries include (with plenty of choice): <https://freepd.com/> and <https://opengameart.org/content/cc0-music-0>

You can credit the library/URL and composer at the end of your dance film.
